

**REMARKS**

Claims 1 and 14 have been amended. No new matter has been added. On June 30, 2008, the undersigned and Examiner Nick Corsaro conducted a telephonic interview to discuss the amendments indicated herein. The undersigned and the Examiner agreed that the proposed amendments place the application in condition for allowance and should therefore be entered without requiring filing of a Request for Continued Examination. Applicants therefore respectfully request that the Examiner enter these amendments.

In the Office Action, claims 1-2 and 5-24 were rejected under 35 U.S.C. § 112, second paragraph, as allegedly being indefinite for failing to particularly point out and distinctly claim the subject matter that Applicants regard as the invention.

With regard to claim 1, the Examiner noted that it is unclear whether the first subframe that is received is associated with the first or second frame. Applicants have amended claim 1 to clarify that the first subframe that is received is associated with the first frame.

With regard to claim 14, the Examiner noted that it is unclear how the actions set forth in this claim are carried out. Applicants have amended claim 14 to correct a typographical error in this claim.

Pursuant to these amendments, Applicants respectfully submit that claims 1-2 and 5-24 are definite and request that the Examiner's rejection of these claims under 35 U.S.C. § 112, second paragraph, be withdrawn.

For the aforementioned reasons, it is respectfully submitted that all claims pending in the present application are in condition for allowance. The Examiner is invited to contact the undersigned at (713) 934-4052 with any questions, comments or suggestions relating to the referenced patent application.

Respectfully submitted,

Date: June 30, 2008
